Research Profile

Dr. Zhang is Assistant Professor of the Institute of Energy, Environment and Economy at Tsinghua University. His research focuses on integration and interactions across energy, land, water, and air quality systems, with particular emphasis on cross-sector synergies. He develops and applies the energy-environment-economy model China TIMES to explore pathways that integrate energy, transport, buildings, and industry sectors, while accounting for shared infrastructures such as power grid, storage and CO₂ transport network. A central strand of his research is quantifying uncertainty in decarbonization pathways using the probabilistic framework, which enables robust policy recommendations. With publications in Nature Sustainability, Nature Communications, and Engineering, He has contributed new insights on the costs, potentials, and enabling policies of integrated low-carbon transitions, and provides evidence-based insights to support strategic policymaking.

Professional Experiences

Jul 2024 – present 📌 **Assistant Professor**
Institute of Energy, Environment and Economy, Tsinghua University, China

Mar 2022 – Apr 2023 📌 **Visiting Scholar**
International Institute for Applied Systems Analysis (IIASA), Austria

Education

Aug 2019 – Jun 2024 📌 **Ph.D., Tsinghua University, China** in Management Science & Engineering
Thesis title: Assessing the Energy Transition, Synergies and Uncertainties toward Carbon Neutrality in China (Supervisor: Prof. Wenyong Chen)

Aug 2015 – Jul 2019 📌 **B.Eng., Tsinghua University, China** in Electrical Engineering (Major)
Core field: Power load forecasting (Supervisor: Prof. Chongqing Kang)

B.Econ., Tsinghua University, China in Economics (2nd degree)
Core field: Behavioral Economics

B.Fin., Tsinghua University, China in Finance (Minor)

Grants & Research Funding

As PI or co-PI

Mar 2026 – Sep 2026 📌 **International (Regional) Cooperation and Exchange program, National Natural Science Foundation of China (NSFC)**
Special Seminar on Climate Change Assessment in Hong Kong and Macao, Principal Investigator

- Jan 2026 – Dec 2028  **Young Scientists Fund (C), National Natural Science Foundation of China (NSFC)**
Hydrogen Energy and Hydrogen-based Fuel Supply Potential and Development Pathway in China under the Carbon Neutrality Target, Principal Investigator
- Sep 2025 – Sep 2026  **International Joint Mission on Climate Change and Carbon Neutrality**
China's green hydrogen, green ammonia and green methanol fuel development pathways under the carbon neutrality target, Principal Investigator

As Member

- May 2026 – Dec 2028  **China National Nuclear Corporation**
Methodological research on voluntary greenhouse gas reduction projects in the nuclear energy industry, Key Member
- Mar 2026 – Feb 2029  **National Key Research and Development Program, Ministry of Science and Technology of China (MOST)**
New pathways for China's carbon neutrality considering equitable climate responsibility and sustainable development, Key Member
- Jan 2025 – Jun 2028  **Horizon Europe, European Commission**
New Pathways for Equitable Climate Action in Line with the Paris Agreement and Sustainable Development (NEWPATHWAYS), Key Member
- Nov 2024 – Dec 2030  **National Science and Technology Major Project, Ministry of Science and Technology of China (MOST)**
CO₂ driven technology for significant enhanced oil recovery and long-term sequestration, WP6: Planning Study for CO₂ Oil Diversion and Sequestration Development, Key Member
- Aug 2024 – May 2025  **China National Nuclear Corporation**
Methodological research on carbon emission accounting for the nuclear energy industry chain, Key Member
- Mar 2023 – Jun 2026  **DG-CLIMA Project, European Commission**
Enhanced sharing of good practices on greenhouse gas emissions modelling between EU and Asian countries (COMMITTED), Key Member
- Jan 2023 – Oct 2025  **Key Research Base for Humanities and Social Sciences Major Project, Ministry of Education (MOE)**
Research on Electricity Transition Pathways and Policies under the Carbon Neutral Vision 2060, Key Member
- Jun 2021 – Jun 2023  **World Bank Group Project**
Green China: Towards Cleaner and More Sustainable Growth, Key Member
- Mar 2019 – Feb 2022  **International Cooperation and Exchange Project, National Natural Science Foundation of China (NSFC)**
Socio-Techno-Economic Pathways for sustainable Urban energy development (STEP-UP), Key Member
- Jan 2019 – Dec 2023  **Horizon 2020, European Commission**
Exploring National and Global Actions to reduce Greenhouse gas Emissions (ENGAGE), Key Member

- Jan 2019 – Dec 2021 ■ **National Key Research and Development Program, Ministry of Science and Technology of China (MOST)**
Research on Global Governance and Domestic Responses to Climate Change Risks, WP6: Simulation of synergistic governance pathways to address climate change and the economy, society and environment in China, Key Member
- Jan 2018 – Dec 2021 ■ **International Cooperation and Exchange Project, National Natural Science Foundation of China (NSFC)**
Multi-model innovations in Integrated Assessment Modelling of Global, Chinese, and Irish energy-economy-environment-climate systems investigating deep decarbonization pathways from the Paris Agreement to the United Nations sustainable development goals (CHIMERA), Key Member
- Jan 2017 – Dec 2021 ■ **Major Program, National Natural Science Foundation of China (NSFC)**
Research on Green and Low-carbon Economy Transformation Management and Policy, WP4: Study on international climate governance and cooperation mechanisms, Key Member
- Sep 2015 – Sep 2019 ■ **Horizon 2020, European Commission**
Linking Climate and Development Policies-Leveraging International Networks and Knowledge Sharing (CD-LINKS), Key Member
